

EVERBUILD SALT AWAY

Colour	Product Code	Pack Size	Box Qty
PALE GREEN	SALT1	1Ltr	12
	SALT5	5Ltr	4

Product Description

Efflorescence is commonly caused by soluble salts within building materials, or dissolved salts transferred into building materials by water. At the surface of the building material the water containing these dissolved salts evaporates leaving behind unsightly white deposits. Left untreated efflorescence can cause corrosive damage to many building surfaces.

Everbuild Salt Away is a non-Hydrochloric Acid based treatment for the removal of unsightly efflorescence from most common mineral surfaces including bricks, stone concrete and flag stones. Quick and easy to apply, Salt Away can be used on walls, driveways, floors and patio areas etc.

Benefits

- Biodegradable safe formula.
- Available in bottles or as a ready to use spray.
- Water clean up.
- Can be poured, sprayed or brushed on.

Areas For Use

- Removing efflorescence from most common mineral surface including brick, stone, render, pathways, patio areas etc.

Limitations

- Always test a small inconspicuous area prior to full application
- Do not use on artificially coloured stones/blocks or pavers.
- Wash off any overspray immediately with clean fresh water.
- It is the user's responsibility to determine suitability for use. If in doubt contact Technical Services for advice.

Surface Preparation

Remove any loose surface dirt or debris with a stiff brush.

Application

Always test a small inconspicuous area prior to full application.

Dampen the surface to be treated with water. Spray or pour Salt Away onto the affected area ensuring complete coverage. Take care not to overspray Salt Away onto surrounding areas particularly lawns, plant beds, metal surfaces. Leave Salt Away for 5-10 minutes depending on levels

of efflorescence. Wash down area with clean fresh water. Repeat application may be necessary for badly affected areas.

In order to help prevent further efflorescence re-appearing, walls can be treated using Everbuild 402 Waterseal or 408 Superseal, paths & patios with Block Guard or Path & Patio Seal.

Specific Data

Appearance	Thin green/yellow liquid
Specific Gravity @ 20°C	1.08g/cm ³
pH	2.0-4.0
Odour	Acrid
Coverage	Approx. 8-10m ² per litre depending on porosity of substrate.

Health & Safety

Consult MSDS for full list of hazards.

Storage

Store in original containers in cool dry conditions above 5°C. Do not allow to freeze.

Shelf Life

12 months from date of manufacture.

The technical data contained herein is based on our present knowledge and experience and we cannot be held liable for any errors, inaccuracies, omissions or editorial failings that result from technological changes or research between the date of issue of this document and the date the product is acquired. Before using the product, the user should carry out any necessary tests in order to ensure that the product is suitable for the intended application. Moreover, all users should contact the seller or the manufacturer of the product for additional technical information concerning its use if they think that the information in their possession needs to be clarified in any way, whether for normal use or a specific application of our product. Our guarantee applies within the context of the statutory regulations and provisions in force, current professional standards and in accordance with the stipulations set out in our general sales conditions.
